Southlake Property Management, LLC

The website we created for this client includes a 'Client Editor'. Sara Gregory, owner of Portland Area Southlake Property Management, LLC, wanted the flexibility to modify her listings as she added new properties and/or rented them. Now she just logs-in securely, adds the content (text and images) and sees it 'live' right away, saving time and money. You can see the results at southlakepm.com by clicking on the 'Properties' page. As Sara adds new listings the web page will automatically 'stretch' to show them all. Each new entry automatically populates the printable, detailed version of the listing.

Frederique came highly recommended and it's evident why. She kept in constant communication throughout the entire process and explained every aspect of the site building as we went along. She saw my vision for the website and helped it to come to life. I've recommended her to other small business owners and will continue to do so."
