Dear Frederique,

This month's featured website is www.jcpahl.com. Developing a new website for Pacific Northwest artist, JC Pahl, was very fulfilling but challenging. I combined my experience as a professional architect and artist with my team's technical expertise and JC Pahl's direction. Making the website visually appealing was easy. The artist's work speaks for itself. However, organizing her prolific (over 48 pieces) body of work was another thing!

A good website needs to be not only aesthetically pleasing but also easy to navigate, and the content should be clear and informative. For many, search engine optimization is also crucial.

Sustainability and Humanitarian Efforts

The website, www.BeyondOurBubble.org, has been updated. Encompassing both humanitarian and environmental concerns, Beyond Our Bubble provides three distinct opportunities for individuals to make a difference:

- The Green Teens** address environmental issues locally, nationally and globally, enabling teens to work together to bring about heightened awareness and action for the earth.
- Into Africa** organizes efforts with local students and community members to provide awareness, support, and a personal connection to school children and their families in Africa.
- The Teen Challenge** is an opportunity for qualified

teens to receive specialized training and work with a team of motivated peers on projects for the benefit of others.

Beyond Our Bubble is not affiliated with any religious or political organization.

We are never too busy for your referrals.

For every referral that becomes a customer you receive your choice of **one hour of free website design services for your own website (**\$50 value**)* or a \$25 gift certificate to either Borders Books or Starbucks Coffee.**

***Existing websites can be transferred to PDX Website Design for updating, hosting and/or maintenance.**
